Mid-term Project proposals

CRITERIA	RATINGS	POINTS
Overall	Comments concept is relevant for design, technically sound	6 / 10 pts
Individual	Comments evidence that the concept is feasible using theory or tools from the relevant lecture During our meeting there were a few unclear points that need further attention such as the selection of good training features. Given the challenges, I think you need to speed up gathering data and prototyping. Don't overthink it, let the data guide your next steps.	13 / 20 pts
